**JOURNEY 372HY** Brand is the next generation of hybrid alfalfas using the msSunstra Hybrid Alfalfa Technology! It is characterized by its aggressive, high forage yielding, high quality features. It expresses fast re-growth of dense, distinct fine stemmed forage. This fine stem characteristic makes a dense attractive alfalfa bale. As the stands of **JOURNEY 372HY** get older, the forage yield and persistence advantages become more pronounced.

**FEATURES**

Consistent high forage yield  
 Rapid recovery after harvest  
 Excellent disease resistance  
 Very dense, persistent stands  
 Fine stems  
 Plant uniformity  
 Drought tolerance

**BENEFITS**

Excellent Return on Investment  
 Better use of growing season  
 Broad adaptability  
 Better weed control –  
     outcompetes weeds  
 Attractive forage bales-  
     looks good feeds great  
 Maintain consistent forage quality  
 Productive under drought stress

**Agronomic Traits**

Bacterial Wilt	HR	Winter Survival	1.8
Fusarium Wilt	HR	Fall Dormancy	4.0
Phytophthora Root Rot	HR	Root Type	Tap
Verticillium Wilt	HR	Crown Depth	Average
Anthrachnose (Race 1)	HR	Early Seedling Growth	Excellent
Aphanomyces Root Rot (Race 1)	R	Drought Stress	Excellent
DRI	29	Growth Habit	Upright
		Fineness of Stem	Very Fine
Stem Nematode	HR	Cutting Recovery	9.2*
Northern Root knot-Nematode	HR	Yield Level	9.5*
Southern Root-knot Nematode	R	Forage Quality	9.2*
		Wheel Traffic	8.9*
