

2018 ARROW SEED WHEAT VARIETIES

VARIETY	TYPE	PRIMARY USE AREA						RESPONSE TO HIGH MANAGEMENT	TILLERING POTENTIAL	FALL GROUND COVER	MATURITY	COMMENTS
		SE	SC	C	SW	NE	NC					
AGRIPRO VARIETIES												
SY SUNRISE*	SD	ID	ID	ID	Id		Id	Excellent	Very High	Good	ME	Best suited for high yield goal, high management production.
SY MONUMENT	MT, SD		iD	iD	iD	?	?	Very Good	Very High	Good	M	Great leaf package, good drought tolerance. Very high tillering, next best to Wolf for establishment in heavy residue.
SY RUGGED	MT, SD		D	iD	iD		D	Good	Good	Good	ME	Excellent foiar diseases package, exceptional drought tolerance
SY WOLF	M, SD	D	ID	ID	ID	ID	ID	Very Good	Intermediate	Good	ME	Great performance level in high residue, tillers well and has excellent plant health, likes spring moisture but will handle droght during grain fill.
OTHER VARIETIES												
OVERLAND (NE01643)	MT,SD	d	iD	iD	D	D	iD	Good	Good	Good	L-ML	Yield and Straw improved over Millennium, very consistent yield.
ROBIDOUX	M,SD		D	D	iD		D	Good	N/A	N/A	L	Excellent drought tolerance
RUTH	M,SD	D	D	D	iD	D	D	Good	N/A	N/A	ML	Very good replacement for Overland
TAM 114	M		D	D	iD			Very Good	Very High	Very Good	M	Excellent replacement to TAM 111
BRAWL CL PLUS*	MT,SD		iD	iD	iD			Good	Very High		ME	2 Gene Clearfield w/ enhanced crop safety & weed control.Use in fields with, cheat, rye and goatgrass and spray with Beyond to control contamination Long coleoptile.PVP, No farm saved seed.
SETTLER CL*	MT,SD			D	iD			Very Good	Very High		L	Western Nebr., S.D., WY, West's counterpart to InfinityCL
AGRIPRO VARIETIES												
SY SUNRISE*	SD	ID	ID	ID	Id		Id	Excellent	Very High	Good	ME	Best suited for high yield goal, high management production.
SY MONUMENT	MT, SD		iD	iD	iD	?	?	Very Good	Very High	Good	M	Great leaf package, good drought tolerance. Very high tillering, next best to Wolf for establishment in heavy residue.
SY RUGGED	MT, SD		D	iD	iD		D	Good	Good	Good	ME	Excellent foiar diseases package, exceptional drought tolerance
SY WOLF	M, SD	D	ID	ID	ID	ID	ID	Very Good	Intermediate	Good	ME	Great performance level in high residue, tillers well and has excellent plant health, likes spring moisture but will handle droght during grain fill.
WESTBRED VARIETIES												
WB CEDAR	M, SD	ID	ID	Id	Id	ID	Id	Excellent	Very High	Good	E	Plant within the middle or later portion of the recommended planting window. Avoid drought prone soils only under irrigation is the west. Holds leaf well.
WB GRAINFIELD	MT, SD	D	iD	iD	iD	iD	ID	Very Good	High	Good	ML	Consistent wheat with very good drought tolerance. very good lear disease resistance.ML to maturity, but quick to finish - may be early to harvest.
WINTERHAWK	MT,SD		d	D	ID		d	Good	Intermediate	Very Good	M	Good to ex. dryland yield; good drought tolerance;susc.to leaf rust so better in west than east. Tillers good.Grazing potential.
