*Field peas put nitrogen back in the soil, reduce fertilizer cost, increase yield per acre, develop beneficial crop rotations, and break weed cycles.*

*Yellow Field Peas enable producers to have a valid cash crop alternative which benefits soil health and disrupts normal crop rotations.*

*The Arrow Seed line-up of Yellow Field Peas are selected for erect plant growth which results in harvest ease. These varieties have great yield potential and have exhibited stable yields over multiple years.*

### **AAC Carver**

Yield: Excellent  
Maturity: Medium  
Height: Tall  
Harvest Ease: Very Good  
Lodging Score: Good  
\*Seeds/lb: 1950-2200  
Disease Res: Good

### **Spider**

Yield: Very Good  
Maturity: Medium  
Height: Medium Tall  
Harvest Ease: Excellent  
Lodging Score: Excellent  
\*Seeds/lb: 1850  
Disease Res: Good

### **AAC Profit**

Yield: Excellent  
Maturity: Medium  
Height: Medium  
Harvest Ease: Good  
Lodging Score: Good  
\*Seeds/lb: 1950  
Disease Res: Good
